Top tips for buying outdoor furniture

Consider the purpose of your outdoor space

Begin by determining what your outdoor space will be used for. Do you enjoy eating alfresco? Perhaps you're looking for a space for your family to connect and chat about the day's events. Or maybe you simply want a place in which to lounge and relax in the sun. Whatever you desire, taking into consideration the function and purpose of your space will help narrow down your choice.

Invest in quality

Avoid future disappointment and invest in quality, weather-resistant pieces that are made to last. We only select products that are specifically designed for the outdoors and backed by proven technology. Come and talk to our consultants about your weather needs and they will be able to point you in the right direction, giving you carefree style to last you through the summer months.

Mix up materials

Just like your interior, mixing materials will add personality and character to your outdoor space. Try pairing aluminium chairs with a teak table or add some soft plush cushions to a woven sofa.

Choose easy care

No-one wants to spend a great deal of time maintaining their outdoor furniture. With our fully outdoor range we make it simple to enjoy your time in the great outdoors. Our quality outdoor furniture will only need a simple wipe every so often. Sanding and re-oiling will also help bring your outdoor timber furniture back to life.

Customise with modular pieces

Customization continues to be one of the biggest trends for both indoor and outdoor furniture this year. Modular pieces give you the ability to design a sofa that will sit perfectly in your space. Whether you choose a corner sofa to fully maximise your outdoor living space or a small chaise for lounging – you really can design your own!

Don't forget shade!

An important aspect of any New Zealand outdoor space is sun protection. The Jardinico Umbrella range offers a modern and stylish solution to those long hot summers. Jardinico umbrellas are movable, easy to use and store and come with a wind resistance rating of up to 80KPH. For a more permanent solution opt for a Luxaflex Motorised awning.

Warranty

Ensure your outdoor furniture is backed up by a comprehensive warranty. At McKenzie & Willis we only buy the best of the best, which is why we offer a 5 year warranty on all our outdoor furniture for no extra charge. Known as 'The McKenzie & Willis Promise', our warranty often goes above and beyond our individual manufacturer's product warranties and the Consumer Guarantees Act. It's also easy, hassle free and will give you the peace of mind you need.

River

International Designer Series

With roots in Belgium, Manutti is the designer and manufacturer of elegant and exclusive outdoor furniture. Their outdoor range showcases beautifully crafted furniture, tables and accessories as well as modular sofas for which they are world renowned as pioneers of the style.

With a passion for research and technological development Manutti pieces are not only designed for outdoor use, but are also characterised by their quality. Their collections are constructed using fabrics designed specifically for the outdoors with special attention to the finish and fine stitching in matching colours.

Their gorgeous pieces range from a traditional to contemporary style and transpose the concept of “indoor sitting room” to outdoors to bring a touch of class and elegance to gardens and terraces all over the world.

OUTDOOR LIVING

Sourcing their materials from around the world, New Zealand brand Devon's innovation and design speaks for itself. With leading edge construction techniques that cut no corners and an emphasis on the most important aspect – a passion for outdoor living – incorporated into every piece they make.

They believe that quality outdoor furniture doesn't rest on the table top. As with most things, it's what's going on underneath that counts, and for all Devon Furniture this includes construction that copes with the stresses of weight and movement admirably.

Devon's core focus is on style, comfort, colour and durability, which they fulfil by using raw materials and methods of constructions which are as timeless as the designs themselves – surviving everything Mother Nature can throw at them.
